Voice tone and cognitive personality

Ni		Introverted Intuition Slowly fading, drifts voice, clear path towards a certain point, upon which it fades, to later grow again.
Si		Introverted Sensing Rhythmic quality voice, interpreted as predictable voice, inducing us to feel calm and trust the messenger.
Ne		Extroverted Intuition Quick shifting voice tone is interpreted as an excited voice, surfing on new patterns and possibilities.
Se		Extroverted Sensing Smooth spikes in rhythmic patterns, but remaining on a strong tone and rarely goes into a faded quality.
Fe		Feeling Extroversion Round, warm tones, allowing them to build bridges between themselves and the listener.
Te		Thinking Extroversion Dry, hard tones, allowing them to show the listener that they are serious and certain. Read as secure and reliable.
Fi		Feeling Introversion Faded, round tones with an emotional investment, making them seem involved and well intentional, genuine.
Ti		Thinking Introversion Clear, concise wording that seems secure, firm and well thought out, may be read as critical or analytical.

If you have difficulty understanding if you are an introverted sensor or an extrovert sensor, an intuitive introverted or extroverted, or what kind of feeling or thought uses, this book can help you very quickly. It is easy to read, difficult to put down, and valuable if you want to have a more complete understanding not only of the type, but also temperament. Then you absolutely need the official MBTI[®] manual. If so, we will definitely advise you to give a look at this list of 10 essential books on the type of personality. # 5 ^À «Neuroscience of the personality: Insights Savvy for all kinds of people if you want to get off at the science kernel behind your kind of personality, this is the book you need to read! Author Dario Nardi is a professor of UCLA and expert in the field of neuroscience. Do you like learning more about how your mind works and where are your strengths and weaknesses? Tieger and Barbara Barron-Tieger sometimes excessively simplify the characters based more on the dichotomies than on functions, I find that their descriptions for children are extremely accurate and useful. The book of him will open his eyes on the unique cerebral activities of all kinds and will show you the real scientific evidence to support Jung's theories! You will discover what types of personalities are the best (and worst) listeners, which types naturally take over, and as different types find ^À «flow. ^à [€]» Young, vol. You can find out what different types of work preferences have and how much Well tend to do in the university! This book is full of decades-worthy research on how the type manifest in real life since childhood with adult age. This book also speaks of how your type develops with age and type development in children. Provides depth and wisdom tested that many other books are missing. He tried to simplify e its work in something more understandable and with a practical application.
